CONSTRUCTION NOTICE

Dear Resident:

Starting the week of May 12th, pavement resurfacing work will begin on **Churchill Rd.** between Rae Rd. and Sheldon Rd. and on **Farnhurst Rd.** between Clearview Rd. and Richmond Rd.

This work is part of the \$640,237.00 Asphalt Resurfacing Program being done in the City this year. The City's contractor for this year's program will be Chagrin Valley Paving, Inc.

The work will involve grinding down the existing asphalt, fixing the road base where needed and resurfacing with two layers of asphalt. Repairs to curbs and aprons will also be done as needed. Aprons are repaired, per City policy, only if the elevation of the new asphalt surface affects the drainage from the apron, or if the apron is too high. Aprons are not replaced if they are broken under this program. There may be times when you do not see any work being performed on the street. This is because the crews are working on other streets in this year's program. The work will be completed by July 31st, weather permitting.

During the work, the street will remain open. Please proceed slowly through the construction areas. Also, do not park on the street during the project.

Garbage collections will continue on the normally scheduled day, but will happen earlier in the day. Please have your garbage and recyclables out by 7 am.

Thank you for your cooperation during this work. We regret the temporary inconvenience all this work may cause you. Please be patient and cooperative, and the inconveniences can be minimized.

Also, if there are any areas along the curb that are seeded due to the work, please water these areas so the grass will grow properly.

If you have any questions or concerns, please contact the Project Engineer, Joe Gigliotti at (440) 439-1999 or email him at gigliotti@cvelimited.com.

Sincerely,

Mayor Joseph M. Cicero, Jr.
